NATIONAL SUICIDE.

It is a circumstance, that whilst the National troops are pulling up our rails on the Western Railway, the Flores Station a cuartel, the horses taken from our tramway cars, people stopped at every street corner, and the very mayorals and passengers brigaded!—there are at the same time wafted by every wave that beats from Europe to the Plate twelve thousand immigrants coming to settle amongst us—coming to make their homes in this country—coming to work, and toil, and labour for a living and an independence. A pretty country they come to!—a happy land they are steaming fifteen knots an hour to! Oh, delusion of delusions!—blind, hapless, erring humanity! Better, perhaps, that the mad billows of the Atlantic had struck steamer upon steamer, and beaten these poor people to some inhospitable shore than thar they shouldl and here to suffer the dire calamities that threaten this once splendid nation.

We have in a single glance at the situation such melancholy contrasts, such ruin, yet such prosperity—such vitality, yet such death—such hopes, yet such despair—that the only anchor left poor tottering reason in moments so dark is *Faith*. In times of trial we all become religious; the mind in its worst despair will cling to something, and yet when sorrows so tremendous overtake a country, [illegible] pressure, and we doubt, aye doubt, the very instincts that we imbibed from the mother's milk.

It is idle to write or publish, or print, or even give echo to public opinion when everything is drowned by the clashing of arms and the roar at the cannon's mouth. The worst enemy of the country could not have imagined ruin more gigantic or misfortune more supreme. No previous wars in our chequered history compared with the present, owing to the magnitude of the interests at stake; and the deafening rockets in our streets are but the announcement of fresh misfortunes and fresh trials, trace in bulletins which come so thick and fast that the Press of Buenos Ayres to-day is the bulletin.

General Mitre, with prophetic truth, said a few days ago that the last plank left us was Congress; and had the Senate listened to his warning it would have remained in the city—but the attempt to organize Congress out in Belgrano is alike ruinous for both parties, since it scatters the last fragments of our surviving institution and places the 'patres conscripti' of the Republic under influences hostile to Buenos Ayres.

Yesterday the last emblem of National authority vanished from this city, and scattered through our suburbs and our camps. Afloat and ashore are the men who once represented the authority of the nation. For these men to return, to retrace their steps and restore to us what they themselves tore down, is a task more difficult than what even the poet assigned to old Aeneas.

In another column will be found line upon line of the history of this country's ruin. Events, as we said the other day, rush on with the velocity of the rapids of St. Lawrence. We want but little to reach the Horse-Shoe of the nation's fall. Is there no power on earth to save us? Bah! the question is too great for us. There is not one to answer it.

We want Danton's pen, to write thunder.

THE ÆNEID.

Sunday was another exceedingly exciting day: and the double edicts of both governments, calling out the National Guards, were doubly perplexing, since President Avellaneda, in the very same decree mobilizing the National Guard, advised the people to remain at home in their houses, but many of the Guards have no houses to remain in; and on Sunday afternoon, the Provincial picquets were on the Flores Road stopping the carts and cartmen and frightening the lives out of the Italian quinteros, many of whom had no papeletas.

Although Sunday, the Bolsa hall was all the morning filled with people who came to hear the news and read the bulletins. The fact that the National cavalry picquets had during the night come up Calle Cuyo inside the Plaza Once was certified by many parties who live out in that neighbourhood: and the patrols of the Flores Juez de Paz and the advanced guard of the National troops at the Chacarita came within speaking distance during the night, but luckily there was no collision.

The departure of the Supreme Federal Court Judges with terms of peace to lay before the President was the best news current on Sunday, The judges left at noon, and as it was freely said Governor Tejedor had offered to abide by whatever decision the Court would pronounce, a hope was entertained that President Avellaneda would also bow to the decision of the Court and thus the whole affair be amicably settled. Colonel Donovan, it appears, was despatched on Saturday night to the Pacheco wood, on the Campana Railway, to look up some 300 men said to have assembled there; but he returned as he went; not a sign of a Tejedorista to be found thereabouts.

Pickets of the 1st regiment of cavalry, National troops, are patrolling all the roads in the suburbs, and some have gone outside into the camps.

Both the *Tribuna* and *Republica* appeared on Sunday, although it was said on Saturday that both had died. The *Tribuna* has fallen into the hands of one of its former editors and proprietors, Dn. Mariano Varela, and is certainly much improved. The *Republica* presents no change, and the *Combate* is dead.

The Parque was thronged on Sunday with crowds of visitors. All the machinery &c., is in working order, and the missing pieces of the Krupp cannon have been found; the Department of Engineers is installed there. The Provincial Government has got there, besides the Krupp guns, 3,000 Remingtons and a number of old cannon that we hear are to be melted down by Schwartz.

Dr. Rawson will publish an address from the Peace Committee explaining its services and giving the public a full report of its various interviews with the authorities.

At all the churches in town prayers for peace were offered up, also in the English church both in town and Flores Dr. Smith said the prayers for peace.

The National Government have issued the following decrees.

Belgrano, June 5th.

having ordered the National Guard of this Province to be mobilized, according to telegrams which were refused at the National Telegraph Office, and this being an open violation of Article 67, paragraph 24, of the Constitution, which centers said power on the National Government alone.

And as he has also seized the building in which the Artillery of the Nation is kept, as proved by the officer in command, and has also seized other National property.

And as he also has tried to seize the railways for his hostile purposes, as is proved by the note addressed under this date to the Minister of Interior by the Manager of the Great Southern Railway.

The Presdt. of the Republic, in face of these open acts of hostility, and in the urgent necessity of defending the existence of the nation, in a General Council of his Ministers

Decrees

Art. 1 Any citizen who obeys the orders of mobilization of the Governor of Buenos Ayres is a rebel and shall be treated as such.

Art. 2 The National Guards of B. Ayres, Entre Rios, Santa Fe and Cordova are hereby mobilized at the orders of the National Government.

The President of the Republic to the National Guards,

I have just learned that the Governor of Buenos Ayres has ordered you out. There is neither right nor authority for such an order. Do not obey it. Remain quietly in your houses. Do not shed your blood in an insensate conflict. Do not rise in rebellion against your country.

Wherever the National flag flies, protected by its faithful soldiers, you can find shelter under its folds for the labour which is indispensable to gain your daily bread and the liberty which is your right.

Your President and friend,
N. AVELLANEDA.

Belgrano, June 5th.

Governor Tejedor has issued the following decrees—

Art. 1 The National Guard of the capital is hereby mobilized.

TEJEDOR
Santiago Alcorta

The Senators for Santa Fe have sent the following note to the President of the Senate:—

On board the Constitucion,
June 4th

To the President of the National Senate—

The Governor of Buenos Ayres has risen in armed rebellion against the Na[illegible] the seat of the National Government has become a rebel armed place.

Congress, which is bound to suppress this rebellion, cannot freely exercise its authority.

History affords not a single example of a Parliament deliberating freely against the enemies of the country and public order in the centre of the rebel camp and army.

Under these circumstances, and following the example of the President of the Republic, who has sought in the army, and outside the city, the necessary guarantees for his person and the free exercise of his functions, many members of Congress have taken refuge on board the vessels of the National Navy, hoping that the regime of force may soon come to an end, or that the Executive will remove the seat of the National authorities outside the sphere of action of the rebel Government.

The undersigned believe it their duty to inform you of their views on this matter.

God preserve you,
D. M. Pizarro
A. Argento

The National Senate has removed to Belgrano.

B. Ayres, June 5th.

To the National Executive

The Senate having duly considered the Message and decree of Y.E. of 4th inst., has resolved to remove to Belgrano.

Mariano Acosta.
M. Saravia, Sec.

Office of Southern Ralway,
June 5th.

To the Minister of the Interior,

I have the honour to inform Y.E. that by orders of the Provincial Government, sent to Azul, all the rolling stock there has been seized and sent to this city.

I have also to inform you that the Provincial Government has assumed an official direction over the whole Southern Railway and its telegraph line.

God preserve Y.E.

George Cooper, Manager.

A ponton in the Outer Roads, on board which are 242 boxes of Remingtons and ammunition, has been ordered to anchor in the midst of the National war vessels.

The Provincial Government has formed a new Battalion of 200 Municipal employees, under Dn C. Davila and Jose Keybeand.

President Avellaneda promised the members of the Supreme Court to undertake no warlike operation while the peace negotiations are going on.

President Avellaneda's family returned to town yesterday. They leave for Parana this morning.

Governor Tejedor has declared that, if General Roca resign his candidature, he will resign his post as Governor.

The Provincial Deputies could not meet on Sunday night, as many members were not to be found at their residences.

The papers call for exemption from military service of the employees engaged on those newspapers which are favourable to the cause of Buenos Ayres.

Two Foreign Legions—one Italian the other Spanish—of 1000 men each are about to be formed.

The National troops from Rosario, 764 men strong, have arrived at the Chacarita.

Ten thousand Correntino troops are ready to invade Entre Rios.

Several armed bands have appeared in the camps of Cordoba.

Our special peace correspondent reports the following:—

Belgrano on Sunday wore quite an animated aspect. The plaza was thronged with military officers Congress men and a number of hangers-on. The National flag floated over the house taken up for the President's quarters, and the naval cadets were perched on the balconies and azotea of the old hotel, next to the church in the plaza, and a few rank and file were visible around the doors of the houses where they are billetted.

Watson's is the chief rendezvous, and 'mine host' is the busiest man at present in the new capital. He has not closed an eye for three days and nights, and on Sunday he served breakfast to 156 applicants, none of whom thought of paying: 'soy del Gobierno,' is the only answer to his application, and our friend must, under the circumstances, notwithstanding a high authority to the contrary, 'put his trust in Princes.'

It is rumoured out there that the plan of the National Government, if the worst should come to the worst (Heaven grant that it may not), is to reduce the city by blockade and siege. The great arteries to the camp, viz., the roads leading to Belgrano, Flores and the south will be occupied by the troops, earthworks will be thrown up at strategic points, and batteries raised to command the highways and disconcert the movements of the beleaguered, should sorties be attempted.

The fleet will take up its position in front of the city, and 48 hours having been given to the foreign population to leave the city, fire will be opened upon the principal buildings of the Province, the Provincial and Hypothecary Banks, the Policia and the Government House in Moreno being more particularly aimed at.

A strict blockade will ba established by road and river, to prevent the admission of provisions, or the further supply of munitions of war. It is known that the supply of wheat in the city is very small: and as sheep and cattle have been driven well out from the city, on account of the 'seca,' and supplies of that kind will be cut off, it is thought that the pinch of want would be felt ere long. Already a sensible rise has taken place in the price of wheat.

Yesterday a considerable number of carts of furniture were observed to leave the city.

[illegible] have been made as to the availability of carrier pigeons should such be needed.

The mails from the interior did not come to the city yesterday, but were stopped in Belgrano, where they have got all our provincial ex changes.

The orders for groceries and supplies at the almacenes in town yesterday were beyond the power of even the most active almacenero.

Although the members of the Supreme Court returned from the Chacarita without settling anything, the impressions they brought back were favorable to peace, and that it will be secured at the last moment. The President of the Republic will accept any honourable solution.

Dr. Leguisamon, of the Supreme Court, and Dr. Goyena, Minister of Education, left yesterday for Rosario on a special mission to Gen. Roca.

The Peace Committee—Dr. Gorostiaga, Gen. Mitre, Gen. Sarmiento and Drs. Frias, Rawson, Alberdi and Quintana—sat at Dr. Gorostiaga's house till a late hour on Sunday night, and their final opinion was that all is not lost yet, and that a peaceful solution is still possible.

Don Saturnino Unzue left for Rosario yesterday, to see Gen. Roca on the part of the Merchants' Peace Committee.

General Luis M. Campos has declined the post of Inspector General of Arms, or the Chief command at the Chacarita, but declares that his sword is always at the service of the President of the Republic.

Several estancieros on the frontiers have offered to form bands of men to protect the frontiers, now exposed on all sides to the Indians, while the National troops are away.

The National Senators and Deputies who landed on Sunday at Belgrano, drove over to the Chacarita in furniture vans, as there were no coaches to be had.

The National troops occupied San Martin yesterday at noon.

Some of the new Provincial 50 million loan is being taken up by capitalists at 80.

By order of the National Government the steam tenders Kate, Tejedor, Buenos Ayres and Felix Esperanza, were seized while conveying passengers to the Italian steamer for Europe, and these were forced to land.

The Argentine Consul at Montevideo received a telegram on Sunday night from the Foreign Office here, declaring this port closed to all foreign vessels. The National cruisers keep moving up and down before the port, and even captains of foreign merchant steamers in port cannot get off to their ships.

The Governor issued yesterday at 3 o'clock the following decree about the Custom House.

Considering, that the National Government has abandoned the Custom House, and that this step

seriously imperils the interests of those who have deposits there, and that it is the duty of the Provincial Government, as agent of the General Government, to take every means to protect these interests and secure the revenue for the nation, the Executive decrees—

Art. 1. That a force of police shall occupy the Custom House, and the receipts be deposited daily in the Provincial Bank by the Administrador de Rentas, who will endorse the bills.

Art. 2. The Provincial Bank shall open a special 'Custom House Account,' to be handed over to the National Government when opportunity arises.

Art. 3. Let this be communicated, etc.

The Administrador of the Mataderos announced to the Municipality yesterday that the National Cavalry had seized all his horses, but he had got in enough cattle to secure to-day's supply of meat.

The National Government issued the following decree yesterday :—

Art. 1. The ports of Buenos Ayres and Ensenada are hereby closed for all import and export.

Art. 2. The Minister of War will take the necessary steps for carrying this decree into effect.

MONTEVIDEO.

Great discontent prevails in all social scales, in view of the threatened taxreform. Not very long ago there was much talk of making Montevideo a free port; the scheme, like many other good things, was but a dream at the best. Mr Peñalva is running through a fire of merited abuse; the honourable gentleman purposes protecting industries by raising new taxes. It is the old story—why not instead reduce expenses?

Our much esteemed tenor Marimon is attracting public attention, not so much owing to his exceptional vocal qualities, as to the fact that two theatre empresarios are going to law, to decide who shall have him. A 'do de pecho' will suffice to shut all the judges up.

Some foreigners here have mixed in politics and entered a 'camisa de once varas;' no doubt, their intentions were good, but, as usual they have gone beyond [illegible] the sarcasm of some newspapers on the matter is exceedingly biting. So much for meddling with other people's business. Foreigners should always keep aloof from such a hot potatoe. Natives begin to think their interference 'de trop.'

Mr Tuson has arrived in Montevideo with the well known scheme of making a second Cherbourg harbour on our south coast. The budget of costs is estimated at 7,000,000 dollars—a rather big amount of money in the present Montevidean crisis.

Montevideo is full of Porteños; they are immediately recognized by the Parisian 'coupe' of their clothes and the absence of dogs. It appears they suffer much from want of sea bathing in the present hot state of the Plate. A great many fashionable balls are contemplated. The tramways are all doing very well, as a Porteño will not walk five squares if he can step into a tramway.

Latorre is always in Yaguaron. The newspapers all announce that he is there, nearly every day, for the last month. The ex-President is said to be preparing a 'suite', that he may worthily enter the Oriental territory. Others affirm that he is to leave for Europe soon. The fact of the matter is that no one knows where he is, and all the announcements in the papers are contradictory. Some people have gone so far as to say that he is selling tea and coffee in Santos.

Mr. Vaillant, the intelligent head of the Statistical Department, has not resigned, as reported. It is to be hoped he will fill the post many years yet.

Events seem to march on with gigantic strides in Buenos Ayres. You have certainly arrived at maturity in democracy; the only precedent of it is to be found in Paris, but then France bore a Thiers, and there things are done on a larger scale. Politicians of all shades and of all countries should flock to the Plate, in order to study a situation which has been brought to a head by the admirable foresight of two Constitutional Governments. Everybody wishes for peace, and you are pretty much in open war.

An enterprising coachman harnessed two wild 'potros' to his car the other day, and employed great tact in taming them in the streets. Only for police interference somebody would have been run over or run into.

A tremendous demonstration is being prepared for a favourite actress here. All the flowers in the suburbs have been cruelly culled to shower on the gifted Mrs. Franco. The company, the orchestra, the audience and the policemen will all take part in the affair. Mrs. Franco and Mrs. Roca are much esteemed by the public here, and they have ably saved the Empresario's situation.

A very intelligent editor here has started a scheme which will tickle Argentines. The plan is the annexion of Uruguay to the Argentine Republic, with Montevideo as a capital. Montevideo would certainly gain by this move, but Uruguay would prove a species of Greek present; the atmosphere would be perpetually revolutionary. Just imagine for once discord between the National, Montevidean and Buenos Ayrean authorities—it would be little short of total obfuscation.

Marriages are on the decrease, whilst bachelors are increasing rapidly in Montevideo. The papers might take up this matter; the only people who marry in Montevideo are foreigners, and they invariably marry the Montevideans. Not long ago there was a very fashionable marriage in high circles, when the charming Miss Mandeville was led to the Hymeneal altar.

The Frigorifique Paraguay has arrived in port. The Frigorifique Company seem to pursue the slow tenor of their way; the steamers they send should be faster. The success of the process is not to be doubted, but some way or another very little is said of this otherwise important enterprise.

EDITOR'S TABLE.

The Æneid is pretty full of uncomfortable news this morning. The blockade began yesterday with the occupation of the Village of the Plain and lovely Lomas de Zamora by the National troops, and the stoppage of the trains on the Western and Southern lines at Flores and Lomas. Some British and German brokers at Flores fell into the hands of the Philistines and were detained for a short time in the waiting-room, but Colonel Bosch and his officers were very polite, and set them free at once. All the foreign Consulates were besieged yesterday with subjects of all the Monarchs in Europe, taking out protection papers, The tramways to the suburbs ran somewhat irregularly yesterday morning, but afterwards as usual.

We are authorized by Dr. Jose F. Lopez to contradict the report published by several of our colleagues to the effect that his house in Belgrano had been rented by the President of the Republic. The matter was never even mooted.

The opera company are 'caught in': They cannot leave now, the port being closed, so may as well make a virtue of necessity and sing to keep up our spirits till all the row

The Rev. James Smith will preach on Sunday next (if the state of politics permit) at noon, in the Scotch Church, Chascomus.

In spite of the row and ruction going on, the Exhibition Commissioners have determined to push on the building and open the Exhibition on the 15th September. Lord knows where we'll all be by that date.

We expected to have the Magellan's mails yesterday, but there was no steamer. The port is blockaded; so the virtue of patience is now the only resource for our stricken readers who pant for European intelligence. We suppose there is no blockade on Havas telegrams, at least we hope not.

The *Nacional*, in referring to the peace negotiations still going on, says that the efforts of yesterday made decidedly more way than those on Sunday. Even this is some thing.

The Marina Club again postponed its regatta on Sunday, till times mend.

The latest version about the recent battle of Tacna is that General Campero succeeded it securing the retreat of a great part of his forces to Arica, where there are now 7000 men to oppose the Chilians.

Madame Durand's benefit was a cordial one, but far short of what she received last year. She sang Nanetti's beautiful valse Il Delirio splendidly, and was rapturously encored.

A guard on the Western Railway was killed at Flores on Saturday last. The poor fellow jumped off before the train had stopped, fell under the wheels, and was killed on the spot.

The truly tremendous rain yesterday added to the general gloom over the city, and the troops in the field had a very damp day of it. Between the rain and the blockade, he must be a first-rate optimist who expects to have fresh meat for breakfast to-morrow. Beefsteaks and mutton chops, to say nothing of lamb's fry and other tit-bits, will soon be worth their weight in gold; but we believe there is a good supply of oatmeal in town, and people must learn to eat what the Scotch call porridge and the Irish 'stirabout': it is the healthiest diet going, and some thundering fine men have been bred upon it. If the siege teach Buenos Ayreans to eat porridge it will be a great advantage.

The famous Gem Puzzle has been solved a dozen times by a little lady named Julia Bloy, who resides at No. 329 Calle Cordoba, and is said to be prodigy in the arithmethic line. The question is, has little Julia, or any one else who has solved this noisy problem, received the 1,000 m/c. promised by the agent for its solution, or even $500 on account?

There was scarcely a soul in any of the theatres on Sunday night. The Poletiama Company intends going to Montevideo till the fuss is over.

The latest news from Montevideo is that people there are beginning to wish they had Colonel Lattorre back again, as the present Administration is making ducks and drakes of everything, especially the finance department.

The rain, which is such a great desideratum for the camp, made everything in town dreary, and intensified the cloud which shows no silver lining. The rain already has been sufficient to cut up all the roads in the suburbs, and driving by coach to the Chacarita is now out of the question.

Mr Michael Murray, whose death we recorded last week, was one of the richest of our Irish sheepfarmers, and a man so generally esteemed that the whole country was his friend: he owned three splendid estancias, all well stocked, and which are inherited by his two surviving children, a son and daughter. Mr Murray was amongst the earliest of the Irish settlers in B. Ayres, and by steady industry and economy amassed a fortune as a sheepfarmer in a life time, a thing not to be done in Europe. Of the many branches of Mr Murray's family spread over the camp, all are rich, wealthy and independent.

All day on Sunday the Flores Road was thronged with furniture carts, people moving into town—a step which seems to us most indiscreet, as, no matter what shape affairs may take, people who live outside will be better off for supplies than those in town. However, in moments like the present there is no answering for judgment or inclination.

A friend dropped in to tell us that fifty years ago the premises we now occupy in Calle Piedad were tenanted by a leading Irish firm, Messrs Orr & Co.; that the firm did a large business; all the partners and managers made fortunes and retired, and that the firm ultimately liquidated and wound up, the partners having made so much money, they did not care to continue making any more. These antecedents are pleasant and remove the depression which the carpenter's and foreman's bills for moving our printing office have caused.

The convent Chapel in Calle Riobamba was re-opened on last Friday. High Mass was sung by the Venerable Dean Dillon. His Grace Archbishop Aneiros preached a to the Sacred Heart, and also on the Relics of the Sacred Heart; he praised their high standard of education and said that the rich, the orphan, and the poor girls would receive good souad education with the Sisters of the Sacred Heart, and that he had the greatest confidence in their abilities. Several Irish priests attended the ceremony. At four o'clock Benediction was given; the choir, which was composed of several Anglo-Porteña young ladies, sang some very pretty hymns and deserved great praise; the little chapel was crowded with Irish and Native families.

San Salvador was crowded on Friday; the great sacred orator Father C. Jordan preached. He quite surpassed himself, and many in the congregation were moved even to tears. After Mass the monthly prizes to the students were distributed.

The excitement on the Bolsa to-day baffles all description, and the news and the bulletins came so thick and fast on the brokers that many stood at the ring bewildered at the sad turn of events. As many of the leading brokers live in Flores, the news from that quarter was the first on 'Change; many of them had been stopped this morning coming to the train by Col. Bosch, but were at once liberated, and before noon it was announced that two regiments of Provincial troops had gone out to retake Flores, but as the line was pulled up it was impossible for them to reach their destination. The worst news of all, however, came up from the Boca, where the lightermen were all stopped, and even the little steamers with passengers for the European steamers were taken prize and passengers sent back. A telegram came up from Montevideo announcing that last night the Arg. Consul received the decree of the Nat. Government closing this port; on fin, step by step events hurry on, and what yesterday no one believed in is to-day a fact.

Gold opened at 31.40 and rose to 31.50, closing at 30.45; it is most remarkable how in the presence of such headlong ruin gold remains so very quiet; in other years gold would have jumped almost "the life to come", still the market is by no means what it seems, and although the prospects of peace diminish daily still the paper money to pay for the gold is hard to get, and the Provincial Bank continues drawing at 40d, but now that the port is closed, and the mails stopped, it is to be supposed there will be no more exchange passed, since the bills cannot go forward. The cash gold sales amounted to 67,100. For the end of June over half a million sold, opening at 31.50, rising to 31.60, and closing at 31.55. The sales of the day only reached 695,100 pats. Cedulas as a matter of course ruls very weak and have dropped to 83. In National Stocks not a single transaction to report, holders of these stocks show much prudence by not forcing them on the market, as there cannot be the least doubt all these National Stocks will be as good as ever when the affair blows over; and after what transpired to-day it is quite evident that, however sharp this melancholy state of things may be, it will be short and decisive; holders of stocks therefore must bide their time.

The gold sales were :—

For June 10th 1,000 31.50
For June 12th 35,000 31.55-60-50

The Magellan's mails are in Montevideo, and now that the port is closed it is difficult to say when we shall receive them.

This morning the Custom House was closed for an hour, but subsequently re-opened, and the decree of the Provincial Government, in another column, will instruct our readers as to the matter.

The closing of the port is of course the shutting up of all business, whilst the cutting the telegraphs and pulling up the rails stops all camp communication. It was said on 'Change that the train that came in from the camp was taken at Flores Station to-day by National Government troops.

A large consignment of cavalry lances was discovered to-day in the Custom House deposits and of course despatched at once.

Most of the captains of the steamers in port were unable to get off to their ships, and application was made to the respective foreign Ministers on the matter.

Many Southern Estancieros leave town in the morning on horseback for their estancias.

There was much talk on 'Change about the commercial community demanding of the foreign Ministers some steps about the steamers and port traffic; possibly to-morrow steps will be taken. Foreigners holding large interests in the camp think their respective Ministers ought to publish some instructions as to the best steps to take for the preservation of their property.

The stoppage of the Boca Railway is announced.

Gold at afterhours ruled 31.50 cash, and 31.60 for end of month buyers; no strong parties selling.

There was no business whatever done after 3 o'clock, everyone discussing the situation.

At afterhours the following sales:—
Gold—
For cash 10,000 31.50
" 10,000 31.55
June 30 50,000 31.55

At 4 p.m. the market closed for cash and the end of month at 31.60 sellers and at 31.55 buyers.

11th inst. sell off the grand stock of furniture in the furniture warehouse of Don Frederico Ruttenberg, one of the most renowned furniture makers in this city.

During the great storm which occurred about a week ago the lightning killed on Mr Martinez's estancia at Dos Hermanas an ostrich, some hens, and a pig, and on an estancia at Nogoya five cows were killed by a single flash.

The Italian s.s. Europa cleared to-day taking a little cargo, but a large number of passengers.

The following official statistics of the live cattle import trade in England show its rapid increase :—

The imports of cattle during April were :—

Sheep	37,757	72,457
Calves	1,460	1,388

Mr Hermann Altgelt, since date of May 22nd, 1880, publishes a wheat and cereal circular which gives as follows—

"The arrivals of wheat &c. during the last week were :—

Total	3,465,060	911,202

Besides there have arrived 2,520 bags of wheat and 1,520 bags of maize, the weight of which has not yet been determined.

"The arrivals of maize were :—
River ports 233,623 kilos.
Western Railway 795,671
Southern Railway 398,010
Total 1,427,304 kilos.

We also received 2,502 bales of hay and 806 bales of tobacco; and our only export was 102,210 kilos of maize for Europe. Since the 27th of May the squeeze in the wheat market has terminated. The millers are not buying. Prices have not declined much, ruling from $245 to $290 m/c the fanega, and for Salado wheat $275. Some large sales from deposit have been made at $290 per fanega of 9 ar., and 5,000 fan. from Montevideo at reserved price. Several cargoes of Rosario wheat at from $245 to 270 have been made, deliverable at the mill of the buyer. Since the 1st of June, however, wheat has fallen from 10 to 15 dollars the fanega, and the millers are doing nothing but cleaning up their mills. About 5,000 fanegas of Chilian wheat sold for Entre Rios, and three cargoes have been retailed. Flour has fallen from 1 to 2 dollars the arroba, the Santa Clara market, San Nicolas, being the only one that commands 43 to 43½. 2,500 bags from Brazil have arrived. From Montevideo 11,000 that arrived from Chile in the steamer Iberia are offering in the market, but not sold, the price bid being very low. Maize rules firmer, owing to the steamers for want of other cargo purchasing it. The following is the latest price current for these article :—

The Oriental schooner Globo Volador on her way down from Mercedes to Montevideo was wrecked in front of Colonia. Luckily the crew were saved.

The French Transatlantic Steamship Line has started a new line of steamships to run from the Mediterranean to New York by way of the West Indies. The steamers employed are the Caldera, 2,800 tons; Ferdinand de Lesseps, 3,000 tons, and the Ville de Marseilles, 3,000 tons. The pioneer steamship is the Ferdinand de Lesseps, which sailed from Marseilles on March 28th, and will be followed by other steamships on the 28th of each month hereafter. They will carry cabin and steerage passengers and freight. Leaving Marseilles, they will touch at Barcelona, Cadiz, Teneriffe, Havana, and Vera Cruz. Returning they will stop at Havana, New York, Lisbon, Gibraltar and Marseilles.

"A telegram announces that a ship loaded with elements of war for Chile was burned in Hamburg on that day. This was probably a cargo of the material which Krupp had in manufacture for the Chilian Government, which it is said has very heavy orders in the hands of the great German manufacturer, late news asserting that Russian and Chilian orders would monopolize the entire force of the establishment for some time to come."

Copy of Analysis by Professor Kyle.

National College, Buenos Ayres, November 29th 1879.

Messrs. M. Forrester & Co., Buenos Ayres.

Gentlemen—I haveat your request made a careful examination of he sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily mixible with water, from which it does not afterwards separate.

The proportion of active ingredients amounts to rather over 30 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.

I am, Gentlemen, your obedient servant,
JOHN J. J. KYLE, Professor of Chemistry.

Extracts from Testimonials

From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodnent Hall. Wales—

"The Sheep Dip is the best that I have ever used. I have not seen a single Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
